

SCOTCH ROCKS

Over the years I've had some great experiences, but its not every day you get to become Chairman of a 200 year old whisky brand with your name on it!

Dating back to 1814 the blend enjoys a 90% malt content, mixed with a variety of specially selected whiskies evoking a fragrant but distinctive aroma, providing a mellow taste with a slight kick.

You can enjoy it neat or with water, ginger, coke or soda... but the Rocker in me has to tell you it tastes just great as **PURE Scotch on the Rocks.**

ENJOY!
